Sonoma Highway Property Owners

**SUBJECT** Notification of Private Water Well Sampling Event at Properties Located on  
Sonoma Highway, Santa Rosa, California

Dear Private Well Owner:

At the request of Exxon Mobil Corporation (Exxon Mobil), and pursuant to the request from the California Regional Water Quality Control Board, North Coast Region (Regional Board), Environmental Resolutions, Inc. (ERI) is providing written notification of plans to sample the private water wells at the addresses listed on the following page. ERI will require access to the domestic water well at your location on Thursday, June 1, 2006, to collect a groundwater sample. Samples will be analyzed by a California state-certified laboratory, under Chain-of-Custody protocol, for total petroleum hydrocarbons as gasoline (TPHg), total petroleum hydrocarbons as diesel (TPHd), and methanol by Environmental Protection Agency (EPA) Method 8015B. Benzene, toluene, ethylbenzene, and total xylenes (BTEX); oxygenated compounds (methyl tertiary butyl ether [MTBE], ethyl tertiary butyl ether [ETBE], tertiary amyl methyl ether [TAME], tertiary butyl alcohol [TBA], di-isopropyl ether [DIPE], and ethanol); and lead scavengers (1,2-dibromoethane [EDB], and 1,2-dichloroethane [1,2-DCA]) will be analyzed using EPA Method 524.2.

ERI will forward the sampling results to you upon receipt of the laboratory analytical report. Additionally, ERI will include the analytical results in the regular quarterly monitoring report for the former Exxon service station located at 4501 Sonoma Highway. If you have any questions, please contact either of the undersigned at (707) 766-2000 or Ms. Jo Bentz of the Regional Board at (707) 576-2838.

Sincerely,  
Environmental Resolutions, Inc.
